### 📁 PROJECTS

#### Real-Time Chat Application ☑

- Engineered instant messaging using WebSocket to achieve a 50% reduction in message delivery time, enhancing user experience.
- Integrated a sidebar displaying online users for an intuitive understanding of active participants.
- Crafted personalized timestamps for effective context and conversation tracking.
- Applied auditory alerts to enhance user engagement, providing real-time updates on new messages.
- Integrated search functionality for users to efficiently find and connect with specific individuals.
- Enforced strategies for lightning-fast interactions, ensuring optimal application performance.
- TechStack:** React, NodeJs, ExpressJS, Tailwind CSS, Socket.io, MongoDB, Mongoose, JWT.
- Github:** <https://github.com/dollyaggarwal/ChatApp> ☑

#### Social Media Platform APIs ☑

- Utilized JWT token-based security for robust and secure user login.
- Crafted endpoints for user signup, login, and logout, streamlining user profile updates for a seamless experience.
- Devised efficient CRUD methods for user posts management, ensuring optimal performance.
- Included personalized features for friend connections, follow/unfollow functionality, and collaborative user engagement.
- Leveraged MongoDB to efficiently store and retrieve user data, posts, and social connections, ensuring scalability and data integrity.
- TechStack:** NodeJs, ExpressJS, MongoDB, Mongoose, JWT, RESTAPIs.
- Github:** <https://github.com/dollyaggarwal/SocialMediaAPI> ☑

#### Ecommerce APIs ☑

- Formulated endpoints for seamless CRUD operations on products, enhancing the overall product management experience.
- Developed user-friendly functionalities for shopping cart management, including adding, removing, and updating items.
- Implemented features for streamlined order placement and management, optimizing transaction flow.
- Employed cutting-edge secure user authentication using JWT tokens, prioritizing user data protection.
- TechStack:** NodeJs, ExpressJS, MongoDB, Mongoose, JWT, RESTAPIs.
- Github:** <https://github.com/dollyaggarwal/EcommAPI-MongoDB-> ☑
